

Cybersafety and Digital Citizenship Agreement for students

Name:

I know it is important to be good Digital Citizens so that we:

- Learn how to make 'good' choices when we are online so that we are all happy and safe and learning
- Look after the school's digital devices and other ICT equipment so that we can always have lots of digital devices to use in class for learning for a long time
- Focus on our work so we can concentrate and do our learning properly when we are using devices
- Learn how to behave when we use devices (computers, ipads, mobile phones, Play Stations, xBox, TV, gaming consoles) at home or outside of school so that we can be safe
- Know what to do when we get into trouble online
- Protect our Digital Footprint (our future/ jobs/life)
- Manage our time spent on digital devices wisely

I know about the ways I should use digital devices and online spaces at school for learning.

I know that if I behave in ways that are not safe online, or kind or responsible, that this is not okay at Oranga School. There may be some actions that my school might have to take, in line with the school behavior plan if I make choices or behave in a way that doesn't align with this Student User Agreement.

I understand and agree to use digital technology and the internet at school safely and for learning at school.

I will revisit this agreement with my teacher at the beginning of each school year. I will ask questions if I do not understand.

Year 2: Signed _____ Date _____

Year 3: Signed _____ Date _____

Year 4: Signed _____ Date _____

Year 5: Signed _____ Date _____

Year 6: Signed _____ Date _____

I am a digital citizen

I will **protect** my private information and the information of others. I will **logout** and **not share** my password information with others (except my parents and teachers).

I will use my device/ Internet/Apps for **learning only** (what the teacher has told me to do).

I will be **careful to share** the things I can feel **proud** of or would be happy sharing with someone face to face.

I will stand up and say "**No**" to **Cyberbullying**. I will **tell an adult** if someone is being unkind or harmful. If I know that my friends are having problems online, I will try to **help them**. If I see that someone is being unfairly treated online, then I will **speak up** rather than just watch it happen.

I will be aware of "**stranger danger**" when I am on-line. I will not agree to meet someone I have been talking to online and will tell a trusted adult if anyone asks me to meet them.

I will use my **time wisely**, I won't waste it. I will **encourage others** to stay on task.

I will make sure that I am **safe and appropriate** when I am online. I will seek **help** if I feel unsafe.

I will **work well** with others on digital projects. I will **listen** to others and ask questions to **understand**. If I know my friend is having trouble online, I will try to **help** them.

I will only use a digital device/internet if a **teacher is near to me** and knows that I am using it.

I will **respect** myself and others when I am online. I will use **kind and caring** words. I will **look after** other people's work. I will **think** before I write comments. I will ask for permission before sharing someone's work, image or video.

I will **look after** ICT devices by being **gentle** (eg. carry with 2 hands, press gently on the keyboard) and **sensible**; don't be rough, break them or steal them.

I will be **mindful** of how much time I am spending online and remember it is important to **do other stuff** away from devices.
